Creative Custom Ceremonies For All Occasions

## 'Honey Ceremony'

Multi-faith clergywoman Joyce Gioia created this ritual revolving around honey, a symbolic food since ancient times and crossing many cultures.

---

### **Honey Ceremony**

Honey is a symbol of the sweetness in life. And so, with this dish of honey, we proclaim this day as a day of great joy and celebration – a day to remember – your day. We thank you God, for creating this divine substance, and ask you to bless it, just as we ask you bless this holy union.

*Groom dips his little finger into the honey and touches Bride's tongue with it;  
Bride does the same, touching Groom's tongue.*

As together you now share this honey, so may you, under God's guidance, in perfect love and devotion to each other, share your lives together, and thereby may you find life's joys doubly gladdening, its bitterness sweetened, and all things hallowed by time, companionship and love.
